Scientifically formulated with the world's healthiest and most effective weight melting ingredients, Skinny Fiber is WAY more than just another weight loss pill.

- ▶ Eat Less and Feel Full
- ▶ Melt Away Stubborn Fat
- ▶ Reduce Fat Absorption
- ▶ Flush Away Ugly Toxins
- ▶ Gently Boost Your Metabolism
- ▶ Release Sexy Energy

Not only can Skinny Fiber help you feel full and eat less, but our proprietary fat burning blend also helps reduce fat absorption, flush ugly toxins, gently boost your metabolism, and a host of other benefits to **turn your body into a fat burning machine!**

Feel Full FAST and Reduce Cravings

Feel Full Fast as Skinny Fiber **Expands 50X** It's Size In Your Stomach

What if you could eliminate the #1 enemy of weight loss is...overeating? NOW YOU CAN. With the ALL NATURAL dietary fiber Glucomannan, YOU ARE IN CONTROL!

Glucomannan is a unique all natural soluble dietary fiber that Expands 50 Times Its Size in your stomach helping you overcome the #1 enemy of weight loss... overeating and cravings.

In addition to the amazing support for your weightloss goals, On its way through the body, glucomannan collects and removes fat from the colon wall, thereby promoting bowel elimination; while absorbing intestinal toxins and helping to normalize blood sugar.

▶ Block the Formation of Fat with Caralluma!

Caralluma is a plant, in the cactus family, that has been used as a natural appetite suppressant in India for centuries particularly in times of famine.

Caralluma fimbriata is also believed block the formation of fat, forcing fat reserves to be burned and helps to lower blood sugar and maintain energy, even with less food!

▶ Stimulate Your Metabolism

It's a well known fact that the higher your metabolism, the faster you process food and the more energy you have. Chá de Bugre is the Brazilian secret to weight loss because of its ability to stimulate fat burning by working to gently energize your metabolism, while at the same time helping to lower your cravings for food.

There are also promising studies showing how Cha de Bugre can reduce fatty deposits and **even reduce the amount and appearance of cellulite.**

▶ Much More than Just a Quick Fix

Skinny Fiber is truly the ULTIMATE weight loss solution. Whether you are looking to shed 10 or 15 pounds FAST for a special event, looking to drop 50 or more pounds and fit into those pants you haven't worn in years, or just looking to get rid of those last few pounds of baby fat that just won't go away, Skinny Fiber WORKS!

Awarded: BEST WEIGHT LOSS PRODUCT OF THE YEAR

Turn your body into a fat burning machine and keep the weight off for good!

Skinny Fiber's proprietary fat burning blend works 3 powerful ways. First, by taking two capsules 30 minutes prior to meals, it expands 50 times its size in your stomach telling your brain that you are full to reduce cravings and ration portions causing you to eat less food and still feel full.

Second, our proprietary fat burning blend blocks fat absorption and new fat from forming forcing your body to burn fat rather than produce it!

And third, with enzymes to gently stimulate metabolism, your body will burn calories faster making it more efficient, healthier, and more energized!

Read About Our Green Approach to Running Our Company

At Skinny Body Care, we believe that good things come from a healthy environment. This includes harvesting the raw materials for our product from the most pristine organic locations on the planet. It means packaging our product in recyclable bottles to eliminate waste. And it means doing everything we can to help our earth thrive.

With these ideas in mind, Skinny Body Care is setting a new standard in the corporate world, and many other environmentally-minded companies are already starting to follow suit. Going against traditional beliefs that "real companies" have "real offices," Skinny Body Care is on the cutting edge of a new era. This new revolution of effectively running a corporation from home eliminates the need for a corporate office along with the unnecessary utilities required, the gas needed to drive to an office, and the harm that those emissions cause our planet every day.

Being a "work from home" company, we also have many other advantages that give us a significant edge over businesses with a more traditional corporate environment. With servers hosted at some of the largest and most secure facilities on the planet, we have the ability to monitor every click our employees do on our site, every phone call they answer, every email they respond to, and every second they are logged into our system. With our exclusive state of the art systems in place, we can effectively monitor the quality and effectiveness of our staff better than most companies can with them working in the office next door.

Whereas having a corporate office restricts businesses to finding employees only in their local area, our strategy gives us the ability to hire the best people we can find no matter where they are in the world. And because our employees have the benefit of working from home, not having to spend money on gas or transportation, and not having to worry about dressing up for work, they are much happier, much more loyal, and much more productive. In fact, it is not uncommon for us to see our support team logging in at 3pm in the afternoon on a weekend to respond to emails, or 10pm at night during the week to check voice mails. Once people get the taste of working from home, they will work as hard as they can so that they never have to work in an office again! As you interact with our support team, you will quickly realize the professionalism and quality of responses that you receive from them.

We believe that this type of change is not only good for our planet, it's essential. And we are proud to be one of the first companies of our kind to set the standard for what we believe will be the next corporate revolution worldwide. PLUS, the money we save from corporate overhead lets us put more into research and development, more into hiring only the best staff in the industry, and more into providing you the absolute BEST product and opportunity on the (green) planet!

Cleansing Fiber in the Media:

Chicago Tribune "Feel Full on Calories"
"High-fiber foods can aid in weight loss. They absorb water to create a sense of being full, so you're less likely to overeat, and fiber-rich foods aren't usually as energy dense as processed foods, meaning you can feel full on fewer calories."

abc "Fiber Promotes Weight Loss"
"Most women under 50 are getting about 40 percent less than they should. And men are even worse, getting only about half the recommended amount. Fiber is good for your digestion and promotes weight loss, but it can also help prevent heart disease, Type 2 diabetes, colon cancer, diverticulosis and obesity."

Flatten Your Tummy

The simplest way to flatten your tummy and turn your body into a fat burning machine is by cleansing built-up ugly toxins from your colon. Skinny Fiber Cleanses gently flushes your system and helps toxins in your body as your entire body can function better.

Not only will Skinny Fiber Cleanses help you immediately shed excess body pounds but also increase your energy levels and improve your body's fat burning potential. You will also notice a noticeable increase in weight and fatty foods as your body is working more efficiently and retaining more nutrients from your meals.
